

## ENHANCE THE LOOK OF YOUR OFFICE

Today, work is no longer synonymous with 9-to-5 drudgery. Organizations are keen for employees to not perceive their offices as a place to escape from. Instead, they want to model them as spaces where one would want to spend endless hours coming up with the best ideas, fostering friendships and collaborating with peers to deliver impressive results. Given that most people spend close to a half of their lives at work, it only makes sense for that to be a joyful and special experience rather than a mind-numbing one.

Today's work spaces have evolved, step-in-step with this new paradigm and approach to work. Colourful décor and cosy chairs have come to replace the usual grim ambience and the stiff seats. While there are cubicles for individuals to get their private nooks, there are also open spaces and collaboration hubs to allow networking time. There are formal meeting rooms, but there are also entertainment zones to catch-up with colleagues, unwind and get your daily dose of caffeine.

It is not just the aesthetics, but the functional side has got an upgrade too, with some must-have picks from the market. There is an enviable collection of products to choose from - classy, ergonomic chairs and spacious work desks, lighting and temperate control systems, savvy security devices, smart storage spaces for office artefacts, and some cool choices for the pantry collection. Take a look at the assortment of products we have for you. No longer will your Mondays be blue!

## IDUS VALENCIA

This sleek conference table breaks away from the traditional teak look and is perfectly designed to go with today's modern offices. Made of American ash veneer, it features a base clad with croco embossed genuine leather, along with recess power outlet system. This may be a clever way to get all creative ideas on the table.

## HERMAN MILLER ACTIVITY

Activity is an original design by Herman Miller's POSH Design Lab (PDL), featuring a weight-sensitive mechanism that responds to your body automatically and delivers comfort in an instant. Made from MPA (Modified Polyamide), its lightweight backrest varies in thickness from top to bottom and from the centre to the outer edges, providing flexibility and support where your body needs it the most.

## DURIAN MATADOR

Opt for a sporty look for the corner office with Matador, the modern work table. Its opulent look combined with sleek form and functional design makes this the best office desk you can ask for. Made with premium materials like veneer encased board and leatherette upholstery, this desk is the one thing to make your office stand out.

## CANADIAN WOOD EXECUTIVE DESK

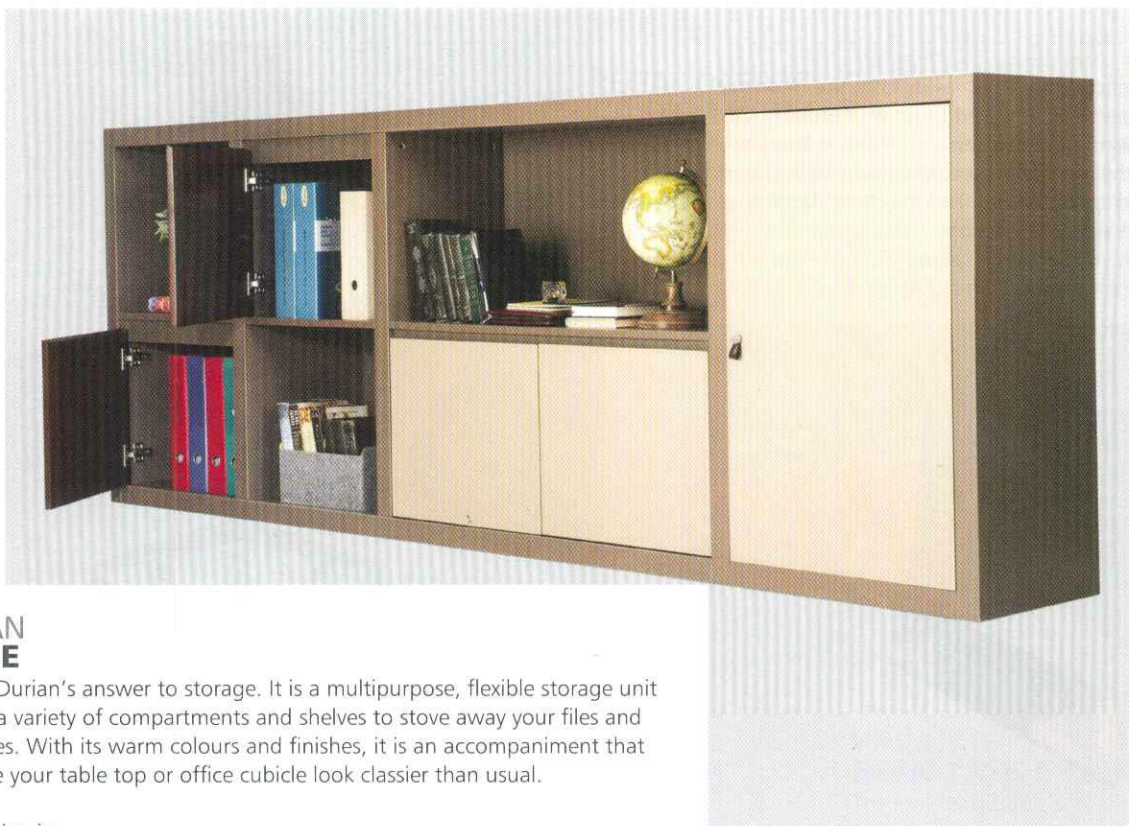

Made of AA Structural Grade Spruce-Pine-Fir (SPF) and featuring tight sound knots, this desk embodies sturdiness with an ability to withstand wear-and-tear. SPF's strength, light-weight, ease of handling and functional brilliance have made it a popular choice for use. Along with a storage space, this is an ideal executive unit.

# STORAGE SYSTEMS

*Organizing stuff has never been so much fun, aesthetic and effective. You can stash away anything in these storage cabinets, from files and folders to gadgets and servers.*

## DURIAN CACHE

Cache is Durian's answer to storage. It is a multipurpose, flexible storage unit that has a variety of compartments and shelves to stow away your files and magazines. With its warm colours and finishes, it is an accompaniment that can make your table top or office cubicle look classier than usual.

## HERMAN MILLER CLOUD STORAGE BOX

Designed to go with its Optimis desk, the Cloud storage box includes a wide range of above-desk storage accessories to help manage a variety of work and decorative artefacts. In the collection are shelves, trays, box files and note stands. With the option to also install on the side of the desk, you can have reference material at arm's length.

## CANADIAN WOOD STORAGE

For huge storage spaces in office areas that almost run to the ceiling, Canadian Wood's Western Red Cedar (WRC) cupboards are an excellent option. The tops of the storage cabinets here are made of dry and solid, edge glued STK (Select Tight Knot) WRC. For the doors though, laminated edge-glued WRC panels are used.

# ENTERTAINMENT AND LIGHTING CONTROL SYSTEMS

We present a collection of entertainment units that would give that extra zing to your office décor. Also our pick of lighting systems have everything going for them - using natural light at best, minimal strain on eyes and a sleek look.

## CANADIAN WOOD ENTERTAINMENT UNIT

This entertainment and bar unit uses a mix of two British Columbia wood species from Canada - Clear Western Hemlock and Knotty Western Red Cedar - to create a stunning space. With its sophisticated yet warm finish, this is an ideal space for executives to relax, network and share ideas with each other.

## IDUS LIBRA

Libra is a smart choice for a modern office space - this is where people can take a break, sip on soothing green tea or just listen to some music. The cubical sofa can be upholstered in faux leather or genuine leather. It flaunts a chester pattern with a linear look along with solid wood framework and polished wooden base.

## TRILUX BELVISO S LUMINAIRE

The Belviso Set free-standing luminaire features the intelligent separation of direct and indirect light components as well as outstanding luminaire efficiency. The exclusive light frame makes the free-standing luminaire captivating. Not only does it create a unique light aesthetic, but it also provides a glare-free effect with the harmonious illumination of the direct light components.
