VIBRANT LOOKS WITH CANADIAN HEMLOCK WOOD

Hemlock dining table and chair in teak finish

Rustic hemlock wood door in clear finish

Solid wood door in hemlock stained to a walnut finish

With its understated beauty and superior milling characteristics, Western hemlock from British Columbia (B.C.), Canada is ideal for furniture, panelling, doors, windows and interior décor.

The wood gives a contemporary, traditional, minimalistic, distressed and clear look as it is non-resinous and takes on most paints, stains and finishes well.

Hemlock Wood is the perfect choice for a versatile look in woodworking projects.
